

SAVE THE DATE
October 14 and 15, 2017

DC Annual Scientific Conference
with *Stefano Bolognini, MD and*
Abbot Bronstein, PhD

We are thrilled to have these two leaders in Psychoanalytic Theory and Practice join us for a fascinating clinical demonstration and discussion of psychoanalysis today.

Dr. Stefano Bolognini, President of the International Psychoanalytic Association, will discuss his thoughts about Intersubjective, Interpersonal and Interpsychic theory & practice. Dr Bolognini is with the Italian Psychoanalytic Society.

Dr. Abbot Bronstein will talk about the influence of the Contemporary British Kleinians on clinical practice, looking closely at the moment to moment unfolding of the process. Dr Bronstein is with the San Francisco Psychoanalytic Institute.

Both will respond to a clinical case, each from their own perspective. There will be time throughout the day for lively discussion among all participants.

On Sunday morning, October 15th, both Dr Bolognini and Dr Bronstein will each lead separate group discussions about a clinical case. This will be optional, with no more than 15 participants in each group.

More details to come.
